Dear Ms. Killea,

I've just learned of AB-3323 authored by Maxine Waters, which provides that any drug approved by the Federal Food and Drug Administration for use in the treatment of AIDS shall automatically be placed on the Medi-Cal drug formulary unless removed according to currently established procedures. As a nurse and a volunteer with the San Diego AIDS Project, I know that, if enacted, this bill will provide a major benefit to those who must rely on Medi-Cal for their AIDS medication.

I support the passage of AB-3323 and hope that you will also.  
Thank you for your consideration.

Yours truly,

*Robert H. Jessop*
